Dear Parents,

At Roxburgh College, we have a Netbook Program to further enrich our student's learning experience. Access to a device in class encourages students to become more effective and independent learners. Having a device to use and maintain also helps to further develop a student's sense of responsibility.

Some advantages of having a device at school include:

- Textbooks can be installed or accessed
- Student's research information can be easily stored
- Students can access homework, worksheets, lessons, notes etc online

The school has negotiated some very good options of suitable devices through JB HI Education. These are displayed on the Roxburgh College JB HIFI Education Portal, which is now live.

Student in Years 7-9 - All students should have a iPad. Below are two of the options you can choose.

Please avoid iPad 13" Pro - The screen is too big and risks being broken during transport around school. We have had a number of breakage of this model due to its size.

Apple ** #	Cost
iPad Air 2 - 32GB WIFI	\$523
iPad Pro 9.7" 32GB Wifi	\$820.53

Students in Years 10-12

The devices below all come with:

An option for a Four year On Site Next Bussiness Day Warranty. Most laptops from stores you have to send the device away for up to two weeks.

All Laptop Devices come with access to the Edustar Catalogue for 200 Programs.

All of this is included with the computer when purchased through JB HIFI. More information about specifications and devices are available on the Portal.

Windows / PC #	Estimated Cost
